The Times does not agree with the Bath Tribune that the English Compromise "is a measure which fully recognizes popular sovereignty, and does substantial justice to the people of Kansas." On the contrary, it considers that compromise to be "a piece of gross injustice and wrong to the people of Kansas," as it contains "an outrageous discrimination in favor of a slave over a free State." This is true,—and the strictures of the Times upon the sudden subserviency manifested by the "Organ" are just and well deserved. The Times asks:

Will the democratic party ever arise to occupy a platform of true genuine democratic principle, while those who have conscience to feel a dereliction and departure from it, and even have a courage to declare it, after a few flourishes of virtuous oppugnation, grow cold, cease, and tumble into the current?

Of course it never will. But what are the "protestants" to do in the premises, when the chiefest of them all, Senator Douglas himself, advances such sentiments as are attributed to him in the report of his recent speech at Chicago?—as follows:

Mr. Douglas adverted to the necessity of maintaining the organization of the Democratic party. While there might be differences of opinion with respect to the true construction of particular articles of the creed, party toleration, he said, must be indulged. There should be no proscription of sound Democrats because of such difference.

We confess we cannot, in the light of these remarks, exactly perceive how the anti-Lecompton "protests" are to be made effectual. Suppose the majority of the party, in National Convention, stand by the English juggle or even sustains Lecompton itself in all its enormity, does not "the necessity of maintaining the organization of the Democratic party" require a general acquiescence? Does not this "party toleration," of which Mr. Douglas speaks, make it necessary for the dissenting democrats still to remain in the party? Does not Mr. Douglas's position, as above declared, indicate in fact, that he and his friends will "tumble into the current," even if it shall be found to run in opposition to their views? As we understand it, Mr. Douglas in another speech recently delivered in Illinois has already declared his acquiescence in the English bill; for he intimated that he should hold the people of Kansas to the terms of that bill,—it having become a law, and, as he considers it, "a settlement of the whole question." If the Lecompton land proposition is rejected, and Kansas applies with a free State constitution, Mr. Douglas will vote *against* admitting the State with such a constitution, until the federal census-takers find a population of 93,000 or, (if after the next apportionment) about 120,000.

Thus we perceive that we are not to look to the Douglas-men for any remedy to the injustice of the English bill. Is there *any* party, except the Republican, which will stand up and vindicate freedom and true popular sovereignty in this case?

The Bangor Union refuses to retract its falsification of our language and our sentiments relative to the Congressional nomination in this District. It consequently stands convicted as a *deliberate and persistent liar* in all political matters,—and its statements are unworthy of notice or credit from any respectable person or paper.

To our direct demand for retraction it merely replies by a quibble, which is meaner and more contemptible than the original falsehood. It says:

We simply stated the question was how Mr. W.'s friends could best ignore the contract and put him in nomination once more, either with or without the consent of Somerset." We did not extract the sentiment from The Whig, nor quote it from columns.

We will copy what the Union *did* say, and leave our readers to judge of its falsehood.

The Whig has entirely different notions of honor and good faith. It wont let Israel decline. The question is, how his friends can best ignore the contract and put him in nomination once more, either with or without the consent of Somerset.

Is that attributing the sentiment to the Whig, or not?

At New Haven, on Monday evening, as Mr. Thomas Tennison with his wife, were passing a store on the corner of Chapel and York streets, a serpent or chaser was fired, which exploded directly in the eye of Mr. T., completely destroying it.

The democrats propose to let New York and South Carolina shall each for itself determine what it will protect as domestic slavery within its own limits. It applies the same doctrine to Kansas, Nebraska and Oregon. — *Argus.*

The Argus is quite mistaken. New York has declared that no man brought within her limits shall be held as a Slave. The Democratic party (i. e. its approved organ the Dred Scott decision) says Slaves may be brought here and held here.

No one denies that the people of Kansas, Nebraska and Oregon are opposed to Slavery, and yet the Democratic party (speaking through President Buchanan) says Slavery has just as large an existence in each of these Territories as it has in South Carolina.

The Democratic party of to-day ignores all the old land-marks upon this subject. It was once a Democratic doctrine that Slavery could not live for a moment (in State or Territory) except under positive local law, affirming and tolerating its existence. The doctrine is now proclaimed a heresy, and Slavery is declared to have a legal existence in every foot of territory covered by the Constitution! Slavery is thus made national instead of (as formerly) a local institution.—*Albany Journal.*

Three Questions for the Union.

1st. Are you in favor of the adoption of a general "*trading*" system among printers?

2d. Are you in favor of the repeal of the law for the protection of woodpeckers?

3d. Are you in favor of very free speech in Democratic State Conventions?

The National Finances.

Alarmed at the effect produced by the exposure of the wide discrepancy between the receipts and the expenditures of the federal treasury, the organ of the administration has put forth a statement reducing the appropriations to an aggregate of $58,000,000, only about fifty per cent above the means provided, other than by increasing the public debt, to meet them. The Washington correspondent of the Philadelphia North American makes the following conclusive reply to this figuring:

The post-office "appropriation" is put down at "$3,500, &c.," when the appropriations actually made were up to gross to $17,000,000, from which must be deducted about $8,000,000 of sundry receipts. Again, the statement of the Union places the appropriation for collecting the revenue at $1,150,000, when it was specially made $3,000,000. So far as this whole question is concerned, it is best to adjourn it, until the clerk of Congress collect the appropriations together in an official and responsible shape. There can be no one-sided exposition.

There is one view of the finances, however, which has not yet been presented, that is worthy of public attention. And this is the actual amount of money received by and granted to the administration within the past fiscal year. About these figures there can be no possible dispute, and if the Union can point out a single error, it shall have the benefit of an immediate correction in these columns. Here is the statement for the special edification of the Democracy:

Statement showing the amount of money received from this one, lands and miscellaneous sources, and the Treasury notes and loans authorized during the fiscal year, from 1st July, 1857, to 30th June, 1858, including the balance in the Treasury on the 1st July, 1857.

Balance in Treasury 1st July, 1857, according to report of Secretary of Treasury,	$17,710,114 27
Receipts in 1st quarter from customs, lands, and miscellaneous sources,	20,929,819 81
Do. 2d quarter,	7,092,665 00
Do. 3d quarter,	8,602,448 38
Do. 4th quarter, not expired, by estimate of Hon. Glancy Jones, in speech of 12th of June,	10,000,000 00
Treasury notes authorized by act of 23d December, 1857	20,000,000 00
Loans authorized by act, June, 1858,	20,000,000 00
	$103,735,047 43

Here is a tall sum imposing aggregate of dollars and cents which the administration has received, and, probably four-fifths of which have already been expended, saying nothing of drafts issued and yet unpaid, or of payments postponed for a good, showing on the 1st of July.

The following table exhibits the actual expenditures during the last ten years, no ding the administrations of Taylor, Fillmore, Pierce and Buchanan:

1849—General Taylor,	$46,295,057 32
1850—Fillmore,	42,506,892 1
1851—Fillmore,	50,606,422 17
1852—Fillmore,	6,552,030 37
1853—Pierce,	43,544,202 82
1854—Pierce,	61,017,249 60
1855—Pierce,	66,365,398 00
1856—Pierce,	60,172,401 64
1857—Buchanan	71,876,128 81
1858—Buchanan,	81,000,000 00

There is every prospect that the present administration will, upon its retirement, leave a legacy of one hundred millions of national debt. So much for the loud professions of economy which characterized Mr. Buchanan's inaugural address.

The latest intelligence from Southern Kansas states that Hamilton, the border ruffian assassin, has encamped in Missouri, about ten miles from the Trading Post. He still breathes threatenings and slaughter against the inhabitants of Kansas. His men boldly report that they are supported by the South and pro-slavery fund, and do not expect to leave until they have driven every Free State man from Linn and Bourbon counties. Some threaten the whole Territory.

THE LEVIATHAN.—The London commercial correspondent of the Liverpool Mercury, writing on the 23d ult., says that "the scheme for raising the additional sum of £220,000 for the finishing of the Leviathan is said to have failed and it is supposed that some other plan will have to be tried."

LOCAL AND MAINE NEWS.

TEMPERANCE MEETING. There will be a meeting of the Bangor Washingtonian Temperance Association at the City Hall this evening, at 7½ o'clock. Let there be a full attendance.

DEATH FROM INTEMPERANCE. A man named Enoch Webster, of Piscataquis, a lumberman, who came to this city on Thursday last, died yesterday morning, from the effects of intemperance, as it is represented.

RAIN. The Machias Republican states that frequent showers have of late fallen in that region,—a very zealous one on Sunday last—and that the grass is looking much better. In this vicinity we have had some showers, and within a few days a spell of cloudy, drizzly, easterly weather, without much rain—quite beneficial, however, to vegetation.

DISASTERS. Sch Friend, (of Camden, Me.) Ureutt, which sailed from Baltimore 6th inst, for Boston, with a cargo of 192 tons coal, went ashore on Kent Island, night of the 8th inst, and bilged. Schs had previously touched on Crisp Shoal and came off without damage.

Brig Martha Kendall, owned principally by Wm. Nash and Sons, of Addison, was lately wrecked on an island about 30 miles easterly of Campobello. She was loaded with lumber, and bound from St. John, south. Not insured.

LAUNCH. Messrs Geo. F. & John Patten launched from their yard in Bath, on Saturday forenoon last, a fine ship of about 800 tons, to be commanded by Capt. Saml. B. Reed.

The Bath Organ states that Messrs O. Moses & Sons have already commenced a large ship in the yard from which the Robt. Cushman was launched a few days since.

DECLINED. Rev. Mr. Webb of the Congregational Church, at Augusta, has declined the very flattering and advantageous offer made him by the Bowdoin Street Church of Boston. He prefers to "abide with his own people."

The salary offered Mr. Webb by the Boston society was $3000. He now has $1200 we believe.

FATAL ACCIDENT.—We learn from the Union that Mrs. Ireland of Athens, widow of the late Dr A. Ireland, who formerly lived in this city, on the Avenue road, was thrown from a carriage in Athens on Saturday last, and instantly killed. The accident was occasioned by the horse not being properly harnessed.

RELIGIOUS. *Mr. Editor,* Thirty-nine persons were admitted to the Congregational Church in Foxcroft and Dover, on Sabbath afternoon, July 11.—thirty six by profession, and three by letter. A large and attentive audience witnessed the interesting ceremony.

Yours, &c.

The Androscoggin Fire Company of Topsham, won the prize of a service of plate at the Bath celebration, and voted to present it to their foreman, Mr Dan'l A. Hall

A rogue at Machias recently appropriated ten dollars worth of fish and butter belonging to Mr. G. Thurber.

Capt. John Pinkham, at Addison, has a calf, of the Devon breed, which, when he was nine weeks old, weighed 226 lbs!—*Machias Union.*

ACCIDENT ON THE FOURTH.—Mr. John Wilber of Pembroke, son of Capt. Wm. Wilber, had his leg so badly fractured by the bursting of a swivel as to render amputation necessary. A party were on board the sch. J. N. M. Brewer, on the way from Pembroke to this place. A swivel procured for the occasion was discharged several times and finally burst. A fragment of the swivel struck young Wilber on the leg, completely shattering the bone from a little below the lower third of the limb to the ancle joint.—*Eastport Sentinel.*

HORSE THIEF ARRESTED. On Monday a young man named William Burgess was arrested for stealing a horse from Mr. James O'Reilly, of Pittston. He offered the horse for sale in our streets, stating that he had always owned him, and that he was 8 years old. He was taken before Judge Tarbell, and pleaded guilty to the charge of horse stealing. In default of bail, he was committed to await his trial at the next Supreme Court.—Burgess formerly resided in this city, and we are informed that he has just been discharged from the Massachusetts State Prison.—*Maine Farmer.*

Brig Orinoco of Cherryfield, from Remedios for New York, with loss of the second mate, and first mate very sick, was spoken 8th inst. off Charleston. The Orinoco afterward bore up for Charleston.

A LOOSE TAMER AMONG US. The rare feats of Rarey, the celebrated horse-tamer, are widely read of, and recent advices from England speak of his giving an exhibition before Queen Victoria to her great satisfaction. We this forenoon had the pleasure of witnessing the modus operandi of the great American horse-tamer by Mr. George Wilson of Brunswick, who with Mr. Frank McGowan of Gardiner, has purchased the right of instructing in the mode in the State of Maine. The exhibition was a very interesting one, and shows the great power which man can exercise over the horse with proper management, reducing him from intractable viciousness to playful docility—overcoming his fear, gaining his confidence without any injury to his spirit. Mr. Wilson is at the Penobscot Exchange, and has a stable fitted up in the rear for the instruction of pupils, a number having already entered the interesting course.—*Times.*

THE RESOURCES OF AROOSTOOK.—A correspondent of the "State of Maine," in a letter from Houlton, makes the following statements, which show how greatly the resources and wealth of the State may be increased by the construction of a railroad to the Aroostook county.

Next to its agricultural resources, Aroostook's great wealth is in its minerals. Of late some investigations have been made of the iron interests of that county, and the results have been highly satisfactory. In Hodgdon and Linneus, towns adjoining Houlton, there are inexhaustible quantities of iron ore of the richest quality. Hon. E. Vernon Smith, Esq., a well known iron manufacturer, visited with me, the mines in Linneus, and he expressed himself highly gratified with the quantity and quality of the ore. Upon melting a small quantity of it, and that too in ordinary specimen, forty per cent. pure iron was obtained. In the immediate vicinity of the iron beds, is excellent water power and full enough for smelting to make thousands of tons of iron.

In the one article of rails alone for the Aroostook road, a saving of $100,000 can be made by making them in Maine; as English rails cannot be laid down in Bangor, of a good quality, less than $62 or $64 per ton, and they could be made, were there works erected, at a profit at $52 per ton. A saving of $10 per ton would make $1000 per mile, and the Aroostook road would be more than 100 miles in length. One of the most serious obstacles a new settler has to contend with, is clearing the land and burning the trees after they are cut down. In the vicinity of iron works, wood is worth $1.50 per cord; so a settler could clear his land at a trifling expense, and realize almost enough from his wood to live upon until he could secure crops.

The York and Carlton Iron Co. at Woodstock laboring under very many disadvantages, which would be obviated in establishing iron works in Aroostook, turned out 800 tons of charcoal pig iron yearly, which cost at the works with steam power, less than $20 per ton, and the average selling price in market was $34 per ton, and the pig iron costs $2,00 per ton more manufactured by steam, than it would by water power. Merchant bar iron could be made in Aroostook at $50 per ton, and is worth in market $90; plate iron $65 per ton, worth over $100; and spring steel bars $50, worth over $100. It is not only the profits of the iron manufacture, and aiding in settling the county and clearing the lands, but the many styles of manufacturing, that would spring up as concomitants. There is not in the whole section of the Aroostook, a carriage manufactory of any magnitude, and hundreds of carriages are brought yearly from the western part of the State, finding a ready market at good profits, while all the material and facilities for manufacturing are found in that county. There can be no better opening for a Pottery as there is choice clay in abundance, and a good market now, which must necessarily enlarge as the county settles.

(By Telegraph to Evening Paper.)

Arrival of the Steamship Star of the West.

New York, July 14.

The steamer Star of the West, with California dates and mails to the 19th ult, and a million and a half in gold, has arrived.

Business was quite active at San Francisco, and harvesting prospects were good.

There was great excitement about the Fraser river gold mines, and thousands were emigrating to that section. The Hudson Bay Co. have stationed armed vessels on the river to prevent emigrants landing goods to sell in the interior.

The news from Carson Valley and frontier territories is bad.

The defeat of Col. Steptoe is confirmed.—He lost 7 men killed, and 16 wounded, and was compelled to retreat. A general Indian Indian war is expected. There was great excitement among the settlers.

From Havana.

Steamer Philadelphia from Havana 8th arrived.

Brig C. Perkins after landing a cargo of slaves, sunk in harbor. Her papers are in possession of the Consul.

Two hundred and twenty-five coolies arrived by ship Competitor.

Sugar firm and advancing, with active demand. Molasses steady. Freights dull.

Ex President Pierce and his wife were to leave Madeira on the first of June for Lisbon; thence avoiding the larger European cities, for Vevay in Switzerland, where they will spend the summer. Mr. Nathaniel Hawthorne and Mr. John Howard March will be with them in Switzerland.

BOTTLING GOOSEBERRIES.—At the last meeting of the Cincinnati Horticultural Society, Mr. Laboyteaux made an interesting statement of the method he had seen adopted for keeping gooseberries for winter use, and, which is valuable at this season of the year. Mr. Laboyteaux said the berries are picked, from the bush at midday, when perfectly dry, and immediately bottled in glass bottles, corked and sealed with wax; the bottles are then placed (top down) in dry sand, so as to exclude the light, and keep cool.

The fruit is not cooked or sugared, nor is it expedient to remove the stem or bloom, as in removing them the berry is liable to be wounded and the moisture exude. In this way this fruit had been successfully kept throughout the winter for table use. The same method had likewise been tried with the currant, and with the most gratifying success—the berries being found sound in February and their flavor unimpaired.

THE HEAVES.—The editor of the Rural New Yorker, in reply to a correspondent's enquiry for a cure for the heaves, says:

We have had five or six years experience with a heavy horse, and during that time we learned that a great many things recommended would not cure that disease, and a great many would not even relieve. Feeding wet food is the best thing we can recommend.—Moisten both hay and oats before feeding, and give shorts freely. A little ginger—two or three tablespoonfuls, given with feed of shorts will give speedy but temporary relief, and is useful when the disease appears worse than common, or when any extraordinary exertion is required of the horse.

AN HONORABLE ACTION. The Transcript says:—Mr. Albert Sumner of Newport R. I., his wife and child, some time since were shipwrecked, and all undoubtedly perished. By the presumptions of the law, the wife and child died first, and the husband became entitled to the property. Mrs. Sumner was a daughter of the late Walter Channing of this city, and enjoyed the income of a large estate. Under these circumstances more than $30,000 became legally vested in the late Mr. Sumner, and through him came to his mother and sister and two brothers—Charles Sumner, our Senator, and George Sumner, Esq. The estate was administered upon by Mr. George Sumner, and, with the consent of all the heirs the whole of this property, which the deceased had derived from his wife has been surrendered to her relations."

THE LIQUOR LAW.—It used to be regarded as a sound political maxim, that "honesty was the best policy." But the Argus has been attempting to prove a contrary rule, in reference to the Liquor Law. But it finds it easier to preach thus than to find believers and followers.

Now for a man to make a fuss, or try to make one over this law, is simply ridiculous, especially if he did not care enough about it to vote one way or the other. To be so horribly worked up, on this law on the 9th of July, when he did not care enough to vote on it a month before, is sheer nonsense. The Argus betrays a lack of common honesty, when it tries to get up this, as an issue in politics.—*Belfast Age.*

MONEY RECOVERED. A package of $4700, robbed from a director of the East Haddam Bank, at the American Hotel in Hartford, on the 14th ult, has been recovered. It was found by officer Chamberlain, on Moses M. Fuller, a waiter in the hotel, who was leaving in the Greenport boat. The money belonged to the East Haddam Bank, and a reward of a thousand dollars was offered for its recovery.

The Irish Slave.

The following is from a recent letter of Charles Mackay to the London Illustrated News:

On my first arrival at New Orleans, I lingered at the open door of a slave depot, without daring to go in, lest I should be suspected of espionage, or mere curiosity, and be expelled. But seeing among the company an eminent merchant of New York, whose friendship I had been fortunate enough to make, and whom I knew to be no slave dealer or supporter of slavery, I walked in and joined his party, drawn hither like myself by curiosity. On one side of the room the male slaves with clean linen and shining new hats and boots, were arranged; and on the other side the females were disposed in their best attire, most of them exceedingly neat, but some bedizened with ribbons of colors more tawdry and glaring than elegant or appropriate. I was immediately beset with entreaties to purchase.

"Buy me," said a young negress, who spoke French and no English; "I am a good cook and a good seed swoman. Buy me."

"Buy me," said another in the same language, "I am accustomed to children, and can make myself useful in the nursery."

I felt a sensation similar to that of the first qualm of seasickness, to be addressed so by my fellow creatures—a feeling of nausea, as if I were about to be ill. I told the poor women that I was a stranger who had not come to buy.

I then walked to the male side of the mart, where I was beset by similar entreaties, urged by every variety of tone and manner, and by almost every variety of labor and handicraftsman. Some were accustomed to the cotton, some to the sugar plantation; some were carpenters, some gardeners, some coachmen, some barbers, some waiters, but all equally anxious to be purchased. One man—who to my inexperienced eyes seemed as white as myself, and whom I at once put down in my own mind as an Irishman of the purest quality, of the county of Cork—got up from his seat as I passed and asked me to buy him.

"I am a good gardener your honor," said he, with an unmistakeable brogue; "I am also a bit of a carpenter, and can look after your horses, and do any sort of a job about the house."

"But you are joking," said I, "you are an Irishman?"

"My father was an Irishman," said he.

At this moment the slavedealer and owner of the *depot* came up.

"Is there not a mistake here?" I inquired. "This is a white man."

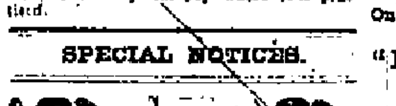
"His mother was a nigger," he replied.—We have sometimes much whiter men for sale than he is. Look at his hair and lips. There is no mistake about him."

Again the sickness came over me, and I longed to get into the open air to breathe a purer atmosphere.

HOW TO OPEN OYSTERS WITHOUT AN OYSTER KNIFE. Take a sharp razor and with it cut away a portion of the thin edge of the oyster. This will enable you to see the place where the two shells meet. Then place the edge of the razor on the division line, and strike it sharply on the back with a tolerably heavy hammer. The oyster will immediately fly open.

Or, Another Method. Take a feather and tickle the oyster on the shell, until you have caused it to laugh, when you can insert a stick, or the toe of your boot, or anything to prevent it closing till you can get a knife.—This requires considerable dexterity, but it is considered a very neat way where it is practiced.

SPECIAL NOTICES.



The Officers and Members of EAGLE Engine Company, No. 3, take this opportunity to acknowledge their sincere thanks to Torrent Company No 2, and the Fountains, of Bucksport, for the reception and politeness they received on arriving at their village on the 5th of July, inst., and our many thanks are due for the bountiful dinner prepared for us, and attentions we received while on our visit, every thing being done that could be for the enjoyment of the Eagles, and the unbounded hospitality manifested, not only at dinner, but on the eve of our departure, when an elegant supper was provided at the Maine House, kept by J. W. Patterson, and the Torrents may well be proud of having secured the services of such a gentleman, who is so well adapted to such and all occasions. Pleasure after pleasure was bestowed upon the Eagles in "Torrents," and our only wish is that an opportunity may soon present itself when we can return the many favors and obligations we have so often received, in a different manner than in the form of a "Card."

To the Ladies of Bucksport, who, by their cheerful smiles, evinced that the Eagles were welcome to their beautiful village, and to the citizens for their courtesy and many personal attentions, the Eagles present their unfeigned thanks.

Those ladies of our city who kindly presented us with boquets for the decoration of our Engine, (one of which gave so fine an appearance to the trumpet of our Foreman), also have our cordial thanks.

The Eagles would also present their thanks to the Charleston Band for their excellent music.

Per order, CHA'S H. GAGE, Clerk.

Arrested for Stealing Money.

HARTFORD, July 14.

A man named Gilroy, who lays in [illegible] in Seventh avenue, N. Y., was arrested here this afternoon, for stealing $300 in gold and silver from a baker in New Hartford last night. He was arrested in this city soon after his arrival, and the money recovered.

From New York.

NEW YORK, July 14.

News from the Isthmus is not especially important.

The sloop of war Vandalia was to sail from Panama, July 4th, on a cruise.

The Cass-Herran treaty was still under discussion in the Granadian Legislature. A joint committee of the two houses had been appointed to endeavour to make some compromise.

[illegible] of M. Belly's contract with the Central American governments had reached Panama from Europe, and caused great [illegible].

Dates from Valparaiso are to June 1st, and [illegible]

[illegible]

There were 90,000 tons of American bottoms seeking cargoes.

Union State Convention.

HARRISBURG, Pa., July 14.

The State Convention assembled here this afternoon, and organized by electing Gov. [illegible] president. He made an address returning thanks for the honor conferred, and [illegible] the peculiar condition of national affairs. He charged the Administration with [illegible] democratic doctrines, and [illegible] union and harmony among the delegates for the welfare of the union party. On the [illegible] ballot for Judge of the Supreme Court Ohompson received 24 votes, J. M. Read [illegible], John J. Pearson 18. Eight other ballots were then taken without any result. In the last one Read received [illegible], Pearson 45, and Jones 21. Adjourned till evening. [illegible] In the tenth ballot Mr. Read was nominated, receiving 65 votes. Mr. E. Frazier was then nominated for Canal Commissioner.

From Washington.

WASHINGTON, July 14th.

The letter from Minister Forsyth asking an [illegible] relative to the tax by the Zuloaga government on the property of American citizens having been laid before Attorney Gen. Black, the subject has by him been thoroughly examined in connection with the official data and the treatise between the Mexican and [illegible] governments, our own being placed on a [illegible] with the most favoured nations.— [illegible] that a general tax may be [illegible] according to the usual form for [illegible] purposes, yet taking all the data into consideration and looking to the present [illegible] of that country, the collection of money [illegible] proposed is in the nature of a forced contribution. Thus the position of Minister Forsyth is sustained, and of this fact he will be duly advised.

A requisition was made on the treasury today, in favor of Col. Geary, re-imbursing the money expended by him while Governor of Kansas, including out three companies of militia, and for which Congress made an appropriation last session.

Commander Page had an interview with the President to-day relative to the expedition to Paraguay. No commissioner has yet been appointed.

The Secretary of the Navy has been detained at home by sickness for the last two days.

It is decided not to change the site selected last March for the Boston post office.

Appointment.

ALBANY, July 14.

The Governor has appointed Samuel P. [illegible] of New York Canal Commissioner, in [illegible] of Mr. Whalen deceased.

ANOTHER DEATH AT THE FRANKLIN HOUSE.—Mr. A. K. P. Berry, a boarder at the Franklin House, died quite suddenly last evening, probably from an enlargement of the heart. Dr. Field, Coroner, was immediately called, and summoned a jury of inquest, which was in session at two o'clock this morning, at which time they had not adjourned.

Mr. Berry was an assistant to Mr. John D. Reed, who erects lightning rods. He was about 35 years of age, and belonged in Biddeford, where he leaves a wife and four children. The remains of Mr. Berry are to be taken to Biddeford to-day.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Rooms.

☞ Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to

EMERY & FOX, H. B. CROMWELL,
Brown's Wharf, Pier 12 N. R'r.
Portland. New York.

Portland, April 2, 1858

California Steamers

Carrying the United States Mails.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any extra expense. This is the only line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of disagreeable lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line *a sure and quick* passage without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent on Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city, C. L. BARTLETT, Agent.

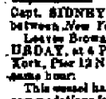
Portland to Boston.

Summer Arrangement.



The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Peters will run as follows:

Leave Atlantic Wharf, Portland every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin,	$1,25
Fare on Deck,	1,00
Freight taken as usual.	

Each Boat is furnished with a large number of State Rooms, for the accommodation of ladies and families; and travellers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given and paid for at the rate of one passenger for every $500 additional value.

American & Foreign Patents.

A. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign Countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and opinions rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official documents relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business in the Patent Office as Solicitor of Patents. He was then, and, perseveringly in that capacity, who had so much business before the Patent office; and there were none who conducted it with more ability, honesty and success. I regard Mr. Eddy as one of the most learned and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and, as a general rule, more able to procure favorable decisions at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"As on 17, 1853—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office. As a Solicitor, he is thoroughly acquainted with the principles and the rules of practice in the Office. I regard him to be one of the most learned and successful practitioners with whom I have had official intercourse.

American Safety Paper Manufacturing Company of N. Y.

Capital $50,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographing, Anuulling Countersigns, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, originally invented and patented in England by Percy Greene, a celebrated chemist and printer of the British army, it is hardly necessary to say that the Paper is recommended by Mr. Rens, assayer of the U. S. Mint, Mr. Lyman, of the New York Clearing House and Meade Brothers, bankers, and all first class photographers, 238 Broadway, N. Y. The latter say that no imitation can be made on sabrek or bank note paper like that of the Safety Paper. Below is our list of prices:

Sight Checks—$1 per lb.
Bank Bills—$10 per 1000 sheets.
Bills of Exchange—$20 per 1000 sheets.
Promissory Notes—40 cts per lb
Sight and Time Drafts—$5 per 1000 sheets.
Insurance Policies—40 cts. per lb.
Rail road Checks and Forms—40 cts. per lb
Bank and State Stationery, etc. per lb.
Deeds and Mortgages—40 cts. per lb.
Wills and Testaments, etc. per lb.

For wrapping Silks and other articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All Tax and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents insects or weather, but makes it lasting as time.

For bolsters silmates it is excellent, and much so after to any other; as the moisture of the climate does not destroy it—this property is imparted to the pulp being a pure alum, in all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while books and other enemies inserted in this paper make it indestructible by the ravages of time. It is also proof against moths, rats and all vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., to about 50 horse power, and are ready to fill Trial orders or Paper at the shortest notice.

All orders for the Paper must be addressed to A. M CHOLAS Vice Pres't of the Company, No. 70 Wall street, New York.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the FIVE largest lists of subscribers sent in by the 1st of January, 1859, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1859.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to pre-pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates—Five Copies, for Six Months, $4; Five Copies for Twelve Months, $8. Ten Copies for Six Months, $7; Ten Copies for Twelve Months, $13. Twenty Copies for Twelve Months $23.

For all Clubs of Twenty and over, the yearly subscription, is only $1.40.

The new Volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; contains annually *from 600 to 800* finely executed Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country. MUNN & CO.,

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward R. Perry, George W. Hall, F. C. Gardiner, Obed P. Miller, Thomas A. Doyle, William S. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c.; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money, and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks, detached on very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost liberality and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, (as in one of the greatest causes of colds and consumption?) it is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and unsafe; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE LUXURY AND PROFIT OF HONEY MAKING.

☞ Torrey's Bee Hive!

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Waldo, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business: to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and is offered to the public with the utmost confidence in its purity and excellence. It is sealed and put up in glass bottles, and consequently can be preserved in any climate, without deterioration. It supplies the same valuable remedy known for the cure of all pulmonic complaints, Coughs, Colds, Influenza, Whooping Cough, Bronchitis, Incipient Consumption, and even for the relief of confirmed consumption, in which last stages of the disease. As time makes these facts more known, this medicine has gradually worked its way into the confidence of the people, from the log cabin of the pioneer to the palaces of this great country, in every state and territory, and in almost every family of sensibility, Cherry Pectoral is regarded as the best of all remedies for diseases of the throat and lungs. To many persons, in our own country, this medicine is indispensable. If they were to rely on what most of every station certify to, and have experienced in their families, if we can trust our own senses, we must believe that it relieves the distressing affections of the lungs, and that it cures them, in many cases, which were thought to be hopeless. In short, if there is any one thing, then is it irrefutably proved that this remedy will cure the class of diseases it is designed for, more surely than all other remedies known to mankind. Not only in its immediate virtues, and the unmistakable benefits it confers upon thousands of sufferers, but in the security it affords from all counterfeits, has it established its reputation. While many have been the unprincipled attempts that have been thrust upon the community, how few have succeeded, and how soon have they been discarded, this has gained its high reputation and extensive sale, by the merits it has exhibited in the cure of the afflicted. Hence it has become the antidote for pulmonary and throat disease, that is to be relied on, when all others fail.
